

VENKATESH SWARNA

Data Engineer

USA | +1-203-887-0845 | swarnavenkatesh46@gmail.com

Summary

Results-driven Data Engineer with 5 years of experience in designing, building, and optimizing scalable data pipelines and ETL workflows using Azure Data Factory (ADF), Azure Databricks, and cloud-native ecosystems. Experienced in delivering reliable data solutions for enterprise-level applications across diverse domains. Skilled in leveraging Apache Spark, Delta Lake, and PySpark within Databricks to process and manage big data workloads efficiently. Strong foundation in data warehousing, data lakes, and modern data architectures. Recognized as a quick learner who rapidly adapts to new tools and technologies, and for collaborating with cross-functional teams to translate business requirements into robust data-driven solutions that support decision-making and innovation.

Professional Experience

Cognizant | Data Analyst – Programmer Analyst

Oct 2021 - Aug 2023

- Built and optimized data lake and ETL pipelines on AWS using Glue, EMR, and Lambda, processing 2TB+ data daily.
- Integrated real-time streaming pipelines with Apache Kafka and AWS Kinesis, reducing data processing latency by 20%.
- Integrated data from 10+ sources (SQL, APIs, JSON, flat files) into Azure Data Lake, enabling centralized analytics and stronger governance.
- Designed and deployed automated job monitoring and alerting systems using Apache Airflow, ensuring seamless pipeline orchestration.
- Implemented data modelling, normalization, and warehousing best practices, improving data integrity by 10%.
- Partnered with data scientists to preprocess and structure datasets using Scikit-Learn, TensorFlow increasing ML model accuracy by 15%.
- Developed and optimized SQL-based data processes and integrated outputs into Power BI dashboards, enabling faster and more informed decisions.
- Adhered to Agile and Kanban methodologies, achieving a 100% sprint success rate and delivering features on time.

Accenture | Application Development Analyst

Dec 2018 - Oct 2021

- Designed and implemented data pipelines using Azure Data Factory for seamless data ingestion from diverse sources.
- Utilized Azure Databricks (PySpark & Python in Apache Spark) for large-scale data processing, cleansing, and transformation.
- Built and managed Azure Data Lake Storage and Azure SQL Data Warehouse, optimizing storage and retrieval of enterprise-scale datasets.
- Designed and maintained ETL workflows ensuring high data quality, consistency, and reliability.
- Developed and hosted Logic Apps for end-to-end data orchestration, streamlining integration across systems.
- Automated data validation and monitoring systems using Python, SQL scripts, and ML-based anomaly detection, improving data accuracy.
- Built a centralized data warehouse using SharePoint Online (SPO) and K2, streamlining product tracking and audit workflows with DocuSign integration.
- Developed Power Automate (MS Flow) pipelines to capture email data into SharePoint Lists, enabling real-time Power BI dashboards and saving 15–20 hours per week.
- Assisted in Agile sprint planning and collaborated with stakeholders to define project scope, requirements, and deliverables.

Education

University of New Haven, West Haven, CT

Aug 2023 - May 2017

Masters, Data Science

Acharya Nagarjuna University, Guntur, India

Sep 2013 - Apr 2017

Bachelor of Technology, Electronics and Communication

Skills

- **Programming & Scripting:** Python, Java, SQL, JavaScript, Shell Scripting
- **Databases & Data Warehousing:** MySQL, Oracle, SQL Server, SharePoint Lists, AWS Redshift, Snowflake
- **Data Engineering & Analytics:** ETL, Data Cleaning, Mapping, Wrangling, Data Modeling, Real-Time Data Processing, Power BI
- **Big Data & Cloud Platforms:** AWS (S3, Glue, Athena), Azure Databricks, Apache Spark, Apache Kafka, DocuSign
- **Pipeline Orchestration & Automation:** Apache Airflow, Workflow Automation, Scheduling ETL Pipelines
- **Version Control & CI/CD:** Git, GitHub
- **Methodologies:** Agile (Scrum), Product Management, Jira, Service Now

Certification & Achievements

Microsoft Azure Fundamentals (AZ-900)

AWS Certified Data Engineer - Associate (DEA-C01)

Star of the Month award for Couple of times during my tenure in Accenture.
